

**Besmira Kulici**  
**Parent Governor**

I have lived in Southall for the last 3 years and I found this area very interesting for its culture and traditions itself. My son Jason in Year 1 Blue joined reception at Beaconsfield Primary School on September 2021 and I have seen an incredible change in every aspect, thanks to the amazing support he has received in this school. This inspired me to give my contribution as a volunteer (support children with reading in March 2022) and continuing as volunteer TA as a part of my course LV2 STLS.

I have also volunteered for school trips and I would like to help this school to retain its excellent reputation for academic success and happy friendly children.

I have finished for Ing. Aeromechanics Bachelor Degree on 2013 and I believe that with my skills and willingness to learn I aim to support the school achieving the highest standard of education.
