

Ms Pooja Bagga
Staff Governor

I have been teaching for many years now and established my career in a small village school in Wooburn Green, High Wycombe. Having the experience and skills, I wanted to further my professional knowledge by progressing in my career and so moved to join Beaconsfield Primary School in 2018.

Being in my second year at Beaconsfield, I can say that the support and progression to my career has excelled. As well as being a teacher, I am now a science leader, part of the senior management team and staff governor. It has been a real privilege to take on this role to support the school in making key decisions and working within this team to build on the successes that already exist.

Outside of school, I enjoy spending quality time with family and friends, travelling and shopping.
